Silence is Golden

“Silence is the perfect
Harald of joy”

said by the great dramatist Shakespeare

The value of silence is Great at home, school or in any place of our social life. If we are silent we can achieve our goal. Great people are always silent. If we are always speaking we cannot spare time for our work we will only bother about others. At the end we cannot do our work successfully. On the other hand, if we are silent, we will have more time to do our work. Silence keeps mind free from confusion. We can think about more ideas. In this world we notice that mother Nature is always silent.

- The blooming flower
- Shining stars
 - Bright sunlight
 - Cool Moonlight
 - Fruit bearing trees

All are silent. If we are silent we may hear the Whisper of God. Silence is associated with worship and meditation.

Great people like Mahatma Gandhi observed “Fasting of Silence” once in a week meditation and prayers were done in Silence. A laughter sometimes brings unity among friends. But a smile in Silence transcends all barriers. It is a Universal sign of friendship. Sleeping is done in Silence. We feel so refreshed after a good night's sleep.

“A Judicious silence is always better than truth spoken without Charity.”

Holding one's tongue is often a sign of wisdom when we are disturbed or under stress, we tell others to “leave one alone”. This shows our needs to be alone at times whenever we are excited over our achievements or conversely depressed by our failures we should remember that dictum, “this also will pass,” Whether it is a good moment or bad it will pass, we cannot hold on to it. The joy of silence is thus manifold. If each of us realises it, the world will probably be a much better and a peaceful place to live in.

WORLD BRAILLE DAY (JAN 04)

World Braille Day is an international day celebrated on 4th Jan to bring awareness of the importance of braille as a means of communication in the full realization of the human rights for blind and visually impaired people. The date for the event was chosen by the United Nations General Assembly via proclamation in November 2018, and marks the birthday of Louis

Braille, creator of this writing system. The first World Braille Day was celebrated on January 4, 2019. It's all thanks to Louis Braille and the schools that adopted and taught his reading and writing system. Why is it worth celebrating? Today's reality is that many establishments such as restaurant, banks, and hospitals don't offer braille versions of print materials like menus, statements, and bills, because of this people with blindness or visual impairments don't have freedom to choose a meal on their own or keep their finances private. Everyone deserves the same accommodations and service, regardless of ability. Let's remember that and do our part to make our workplace more accessible for everyone.

sible for everyone.
