#### Mentor's Message

Dear Readers,

I want to share with you a secret that has helped many to achieve goals and live a fulfilling life. That is hard work. Hard work is essential. It's not just about long hours; it's about dedication, perseverance, and continuous learning.

Here are a few key points regarding hardwork:

Hard work distinguishes achievers from dreamers.

- Set clear and measurable goals.

- Create a daily schedule.
- Prioritize important tasks.
- Minimize distractions.
- Learn from failures.

This month's magazine consists of achievements of the students, department day celebrations and others. It is because of their hard work.

*"Successful people are not gifted; they just work hard, then succeed on purpose."* — G.K. Nielson

Wishing you all the success.

## IMPORTANT DAYS TO REMEMBER... NATIONAL SCIENCE DAY - 28 FEB 2025

National Science Day is observed every year on February 28th to commemorate Sir CV Raman's groundbreaking discovery of the Raman effect in 1928, for which he was awarded the Nobel Prize in Physics in 1930. The inaugural celebration took place in 1987, following a request from the National Council for Science and Technology Communication to the Indian government to establish this date as a day of scientific recognition.

Each year, the celebration revolves around a specific theme, and this year's theme is "Empowering Indian Youth for Global Leadership in Science and Innovation for Viksit Bharat." The day serves to honor the contributions of scientists, emphasize the significance of science in everyday life, showcase India's scientific accomplishments, and motivate young individuals to pursue careers in science.

Activities during the celebrations include workshops, exhibitions, debates, quiz competitions, seminars, projects, and science fairs. These events foster scientific thinking and ignite interest in science, especially among the youth. Students gain insights into the relevance of science in their lives, cultivate a scientific mindset, and engage with scientific concepts through interactive experiences.

## WORLD FORESTRY DAY - 21 MAR 2025

The International Day of Forests was established on the 21st day of March by the resolution of the United Nations General Assembly on November 28, 2012.

- International Forest Day was observed for the first time on March 21, 2013.
- In November 1971, at the conference of the Food and Agriculture Organisation, it was voted to establish "World Forestry Day".

### IMPORTANCE OF FORESTS:

- The forests are the habitats of wild animals and birds.
- As trees grow, more oxygen is released into the atmosphere.
- We should protect forests and wildlife to conserve biodiversity.
- People who live in and around forests are dependent on forest products to lead their lives. Wood, latex, paper, essential oils, bamboo, medicines, etc., are obtained from the forest.

So in turn it helps to stabilize the climate, so forests act as a solution for greenhouse gas emission.
