Mentor's Message

Dear readers,

Contentment is required for all aspects. Contentment is quiet confidence and valuing what you have instead of chasing more contentment helps to grow, set clear goals, prepare, explore options, learn from outcomes, and be kind to oneself. Communicate with respect and make thoughtful decisions. Messages should reflect politeness and order, while deliberation requires careful,

thoughtful decision-making. Practice builds skill; reflection sharpens judgment. Gratitude brings joy. Patience fuels steady progress. Self-discipline keeps you focused and consistent. Empathy strengthens relationships; humility keeps you open to learning. Act with integrity, because doing what's right builds trust and self-respect. Remember: "The beautiful thing about learning is nobody can take it away from you."

WORLD OZONE DAY (16 SEPTEMBER 2025)

World Ozone Day, celebrated annually on September 16, is a global observance dedicated to raising awareness about the importance of protecting the ozone layer. The ozone layer is a natural part of our atmosphere, a shield that protects us from the sun's harmful ultraviolet (UV) radiation. This UV radiation can be detrimental to human health, causing skin cancer, cataracts, and weakened immune systems. It also impacts plants, crops, and ecosystems. In particular, the ozone layer protects us from the UV radiation, known as UV-B, which causes sunburn. To protect the ozone layer, individuals can minimize their use of ozone-depleting substances, particularly those found in refrigerators, air conditioners, and aerosols. Reducing car use and promoting local shopping also contribute to a healthier ozone layer. Furthermore, ensuring proper disposal of old appliances and maintaining air conditioners are crucial steps.

WORLD TOURISM DAY (27 SEPTEMBER 2025)

World Tourism Day, observed on September 27th, emphasizes the importance of tourism in promoting cultural exchange, driving economic development, and raising environmental awareness. Initiated by the United Nations World Tourism Organization (UNWTO), this day advocates for responsible tourism practices and honors the rich heritage of various nations. It connects cultures, fostering global understanding and mutual respect. Additionally, it stimulates local economies by creating jobs and generating income. Nonetheless, it also brings about environmental issues, including pollution and the depletion of resources. To address these challenges, the adoption of sustainable tourism practices is crucial. These practices encompass eco-friendly lodging, community-oriented tourism projects, and efforts to preserve cultural heritage.

WORLD HEART DAY (29 SEPTEMBER 2025)

World Heart Day, celebrated on September 29th, aims to increase awareness regarding heart disease and stroke, which are among the top causes of death worldwide. This day motivates people to embrace heart-healthy habits, advocating for minor adjustments to avert cardiovascular illnesses. By making deliberate decisions, like maintaining a balanced diet, engaging in regular exercise, and steering clear of tobacco and excessive alcohol consumption, we can lower our risk and enhance our overall well-being. Let us commit to prioritizing heart health, raising awareness, and setting a positive example.
